GEO. W. HOUK DEAD.

Sudden Demise of an Ohio Congressman.

DROPS DEAD IN WASHINGTON.

Heart Failure Is the Supposed Cause, as He Was in Perfect Health a Few Hours Before He Died—His Remains Will Be Buried at His Home in Dayton, Ohio. The Biography of His Life.

WASHINGTON, Feb. 10.—Representative George W. Houk of Dayton, O., died suddenly at 4:30 o'clock yesterday afternoon of heart disease. Mr. Houk was apparently a man of robust constitution, and the news of his death, which was rapidly communicated about the hotel lobbies came as an unexpected shock to his many acquaintances and congressmen and public men generally.

He had attended to his congressional duties during the day and was to all appearances in full vigor of health. The fact of his death was difficult of confirmation. As Mrs. Houk was hastily summoned to the side of her stricken husband and had not left word as to where she was going, the nature and extent of what had happened, was not known at his residence until late at night.

Mr. Houk left his committee room in the afternoon, where he was engaged in dictating letters to his stenographer, remarking that he felt tired and would not do any more work during the afternoon. He made a social call on Mrs. A. Reynolds and her sister at 127 Connecticut avenue, and at 4:30 o'clock went to the window in the parlor and looked out presumably to see if a car was in sight. At the window he stooped as if to pick up something from the carpet and fell forward on his face. Medical aid was at once summoned, but it was found that Mr. Houk's death was instantaneous.

Mrs. Houk is the only member of his family now in the city and was immediately sent for. During the evening the remains were taken by the direction of the sergeant-at-arms of the house to William Lee's undertaking establishment. The body will be taken to the home at Dayton, O.

The announcement of Mr. Houk's death will be made to the house as soon as it assembles, and that body will probably adjourn out of respect.

The following sketch appears in the congressional directory:

George W. Houk of Dayton, O., was born in Cumberland county, Pa., Sept. 23, 1825. He removed with his father to Ohio in 1827 and settled in Dayton, O., his present home.

After receiving an academic education he taught school, studied law, and was admitted to the bar. He formed a partnership with his preceptor, Hon. Peter E. Lowe, in 1846. In 1852-53 he was elected to the state legislature from Montgomery county, and served through his term as chairman of the judiciary committee of the house.

In 1860 he was a delegate to the Charleston-Baltimore convention, and was an ardent supporter of Mr. Douglas for the presidency. He was also a delegate to the national Democratic convention in 1867. From 1861 to 1882 he was in active law practice in partnership with Hon. John A. McMahon in Dayton. In 1884 he was unanimously nominated for the circuit judgeship of the Second circuit, but was defeated, and was in the same year district elector on the Democratic presidential ticket.

In 1886 he was unanimously nominated as the Democratic candidate for congress in the Third district, but was defeated; was elected to the Fifty-second and re-elected to the Fifty-third congresses as a Democrat.

The News at His Home.

DAYTON, O., Feb. 10.—News of the sudden death of Congressman George W. Houk in Washington was a shock to this community, where he has lived all of his life. His suburban home, Rummy-mode, is one of the most beautiful locations in the Miami valley. Besides his wife, he leaves a son and two daughters married.

EXPRESSCAR ROBBED.

About One Thousand Belonging to the Railroad Was Secured.

CARSON, Nev., Feb. 10.—About 7 o'clock yesterday evening, when the Virginia and Truckee mail train was a mile out of town the expresscar was smashed in and the tin box containing money to pay wages to sectionhands along the road to Reno, was demanded of Jack Page, a Wells-Fargo & Company's express messenger, at the muzzle of a shotgun. It is customary to pay off the men on the 10th of the month and George Mills, paymaster of the road, boarded the train at the depot yesterday evening with a tin box containing money to the amount not much over \$1,000, though the exact amount could not be learned. The train moved slowly going out of town and it is evident the robber got aboard the train when it was nearing the outskirts, getting between the mail and expresscar.

When about a mile out of town the rear door of the expresscar was suddenly smashed in, and a man with a shotgun demanded the tin box of money which he knew to be in the car. The robber then pulled the bell cord, giving the engineer the signal to stop the train, which was done. After securing the box the robber jumped from the train.

PEACE STILL REIGNS IN HAWAII.

The Schooner Aloha Brings Advice From Honolulu Up to Jan. 23.

SAN FRANCISCO, Feb. 10.—The schooner Aloha arrived from Honolulu last night. She left Honolulu Jan. 23, and reports everything quiet.

The Chronicle's Honolulu correspondent, writing under date of Jan. 23, says the news received by the Mariposa Jan. 20 was considered highly favorable to the annexationists and pleasing to the provisional government.

Previous to the arrival of the Mariposa, the royalists were in high glee, owing to a report said to have been made on the authority of the British minister, that a special vessel would bring instructions to restore the queen to the throne. The belief was so strong that arrangements were made by the royalists to celebrate the occasion by a torch-light procession.

The claim is made by the royalists that letters have been received from Tammany leaders, who declare that that body will support the stand taken by Cleveland, and that such action by Tammany will result in the withdrawal of Senator Hill's opposition to the administration's policy.

Paul Neuman, legal advisor of the ex-queen, held a long conference with her on Jan. 20. It is said he advised her to sell her claim to the throne to the United States for several hundred thousand dollars, to be paid in yearly installments.

The government has made no further removals of royalist sympathizers from government employ, though strongly urged to by both the American league and Annexation club. Unless some action is taken at an early date it is likely there will be a serious split among the supporters of the government.

Up to the 23d no demand for an explanation had been made by the provisional government of Minister Willis for his action in refusing to recognize independence day celebration.

CHAIRMAN WILSON ILL.

The Tariff Reformer Confined to His Room in Chicago.

CHICAGO, Feb. 10.—Chairman Wilson of the ways and means committee is seriously ill at the Palmer House with a throat affection. He arrived in Chicago yesterday with his wife, and a physician was summoned. The doctor says that Mr. Wilson's illness is not necessarily of a dangerous character.

Mr. Wilson is accompanied by his wife and daughter and Congressman J. C. Tinsney of Missouri. The party is on its way to Mexico, where Mr. Wilson hopes to recuperate from the trying work of the preparation and passage of his tariff bill. En route to Chicago Mr. Wilson was taken with a chill, and on his arrival at the hotel, was compelled to secure medical attendance.

Run Down at Last.

ANDERSON, Ind., Feb. 10.—Chief of Police Snyder of Philadelphia yesterday telegraphed Sheriff Van Dyke that he had arrested Sam Garrison of this city and would hold him until an officer arrived. Deputy Sheriff Colburn left for Indianapolis at once to get a requisition, and will then go to Philadelphia. Garrison is wanted here for larceny and embezzlement. He has perpetrated frauds on Red Men's lodges all over this and adjoining states. The Red Men here gave \$100 to assist in his capture.

Lightningrod Swindle.

CRAWFORDSVILLE, Ind., Feb. 10.—A gigantic lightningrod swindle has been perpetrated in Montgomery county during the last few days, and many victims are reported. Two agents have induced farmers to sign contracts for rods at \$5 a building. These contracts turn up in the form of checks and notes. Numerous victims are reported on all sides. J. C. Brown was swindled out of \$300; Henry Roggel, John Dean and Herman Goss out of about \$200 each, and others for various amounts.

Attempted Suicide.

ALLIANCE, O., Feb. 10.—Fred Roberts attempted suicide at his home, in the presence of his wife and two neighbors, by cutting his throat with a breadknife. One of the women grabbed his arm before he could accomplish the act, and a desperate struggle ensued, the women finally gaining possession of the knife. He was found to be temporarily insane and locked up. The cause was despondency over inability to secure work.

Verdict of Guilty.

KOROMO, Ind., Feb. 10.—A verdict of guilty has been agreed upon by the jury in the Colonel Armstrong embezzlement case, but the punishment has not yet been fixed. A sealed verdict will be returned to the court with punishment at from five to seven years' imprisonment. Armstrong was the deputy treasurer of Tipton county, and was charged with embezzling about \$40,000.

Mexico Erecting a Fine Statue.

CITY OF MEXICO, Feb. 10.—Work has commenced for the erection of the statue of Hidalgo de La Independencia, which will grace the third court of honor of the famous Pasco de la Reforma in this capital. The monument and statue complete will cost \$400,000, and will be the finest work of the kind in Mexico.

Stole From a Church.

SOMERSET, O., Feb. 10.—A tramp, under the name of James Calley, an ex-soldier, aged 50, entered Holy Trinity church and carried away from the altar a golden chalice and some robes. He was arrested and bound over to the grand jury. Doubts exist as to his sanity.

Woman Suffrage in Iowa.

DES MOINES, Feb. 10.—The senate suffrage committee reported favorably on a bill granting women the right to vote in school elections, and also providing a constitutional amendment allowing women to vote in all elections.

BOB MARLER HANGED

A Legal Execution Takes Place in Southern Kentucky.

ONETHOUSAND PEOPLE PRESENT

A Ten-Minutes' Speech on the Scaffold but No Confession Made—The Condemned Man Died in Fifteen Minutes—The Killing of Mrs. M. E. Brown Was the Crime For Which He Was Executed.

PINEVILLE, Ky., Feb. 10.—Bob Marler, the Kentucky desperado who shot and killed Mrs. M. E. Bowden on a belt line train near Barbonsville, Aug. 28, was hanged yesterday. A crowd of 1,000 persons witnessed the execution.

Marler was brought to the scaffold by an armed guard, there having been threats of vengeance made by certain of his friends, and he was given an opportunity to speak for 10 minutes. He thanked Sheriff Colson for the courtesy shown him while a prisoner in the county jail, and also other persons who had shown him little kindnesses during his incarceration. His talk was rambling, but at no time did he confess to the killing. At 11:05 Sheriff Colson pulled the lever and, in the presence of the huge crowd of spectators, the deep radio's body shot through the drop, and in 15 minutes he was pronounced dead.

The crime for which Bob Marler paid the penalty was the murder of Mrs. Mary E. Bowden, who was at the time keeping a boardinghouse for miners at the Mingo mines, near Middleboro. The deed was done on Monday, Aug. 28, 1893. As the early train on the Middleboro Belt railroad was going from town to the Mingo mines, and when about one-half of the distance had been made, the few passengers in the one coach of the train were startled by a report of a gun, a crash of a window pane and a cry from the lady passenger.

It was found that a bullet fired from some one on the outside had passed through the window a few inches from the head of the conductor, John Chapman, and had struck Mrs. Bowden, who was seated on the opposite side of the car. The wound was mortal, the unfortunate woman living only about 24 hours after it was inflicted. The train was stopped, but nothing could be seen of the murderers miscreant who had fired the deadly shot.

A clew, which afterward proved important, was, however, discovered. Rain had fallen the night before and the ground was consequently soft. Near an old stump alongside the railroad tracks were found as of one man who had wore shoes which were not mates. The shoe on the one foot made a plain track, while that on the other showed that it was studded with hobnails. The track was followed to near the home of George Marler.

With that clew for a start, the officers brought to light a murderous plot in which the Marler brothers, George and Bob, were the principals. The Marlers had a quarrel with Mr. John E. Long, a lumberman, over a settlement. Long was supposed to be on the train, and Bob Marler, when he fired the shot, mistook the conductor for him.

The Marlers were tried and Bob found guilty and sentenced to death, his brother being given a life sentence. An attempt was made to lynch the condemned man, but the militia was called out and the mob repulsed.

This is the first judicial hanging in southern Kentucky, and the verdict gave general satisfaction. Great praise is due Sheriff Colson and Captain Holburn for fooling the mob and their subsequent aid in convicting the prisoners.

SHOT DOWN IN COLD BLOOD.

A Farmer Kills One of His Tenants Who Calls to Collect a Bill.

MCKINNEY, Ky., Feb. 10.—Another bloody murder was yesterday added to the criminal records of Lincoln county. A. C. Dunn, a farmer living in the suburbs of this place, shot and killed J. P. Brown, who was a tenant on his farm.

Brown had rented a portion of Dunn's farm, but had become dissatisfied with his bargain and sold back to Dunn his contract for \$100, which was to have been paid some days ago.

Thursday Dunn told Brown to come to his house Friday morning, and he would settle the debt. Brown went and received the contents of a double-barreled shotgun in his head just before he entered Dunn's yard.

Brown's real name is Todd, but he has lived here for many years under his assumed name. He was a hard laborer, but leaves a large family in a destitute condition. Dunn gave himself up, and was lodged in jail at Stanford.

Dodged His Wife's Bullets.

LIMA, O., Feb. 10.—Unwarranted jealousy almost resulted in murder at Custer, near here. Dr. Noble, who came near being the victim, has been married less than a year. He was consulting with a lady patient in the rear room of the office, when his wife, armed with a revolver, forced an entrance into the consultation room, and proceeded to shoot in a businesslike manner. The doctor escaped being hurt, and after a lively tussle, managed to get possession of the revolver. The wife now regrets her course in the matter.

Chased Seven Thousand Miles.

CLEVELAND, Feb. 10.—Some time ago George Dressler, aged 22, forged the signature of T. R. Howard to a postoffice order for \$5 at Albuquerque, N. M., and obtained the money. Upon the discovery of the forgery, the postoffice inspector started after Dressler, and after a chase covering more than 7,000 miles arrested him yesterday at Hanover, O. They will return to Albuquerque at once. The penalty for the crime is five years' imprisonment and a fine of \$5,000.

HIS THIRD TRIAL ENDED.

The Much Prosecuted Man Will Now Sue For Heavy Damages.

CRAWFORDSVILLE, Ind., Feb. 10.—The third trial of Edward Brown, the alleged express robber, has come to a close. Two former juries disagreed on the case. The prosecution was backed by the American Express company, which put forth every effort to bring about a conviction on the third trial, but the jury yesterday returned a verdict of acquittal.

Brown was charged with attempting to enter an American expresscar in August last at the Junction and with shooting and attempting to kill Charles W. Julier of Indianapolis, the express messenger. It was claimed by the state that Brown and several companions jumped on the front platform, and, opening the door of the expresscar, fired at the expressman and baggage-master. The fire was returned and the invaders were driven off.

The defense set up that Brown was trying to steal a ride to Indianapolis, where he had a brother living, and that the express messenger and baggage-master shot out of the door to frighten them off. Brown was wounded in the abdomen, and, after falling from the platform, he was found lying beside the track some time after the train had passed. The men firing the shots did not know that anyone was hurt until the following day, and then it is alleged that in order to justify themselves the attempted express robbery story was concocted.

The defense also alleged that if there had been an attempt at robbery, or if the railway employees had imagined that such was contemplated, they would have sent word to the depot, which was only 600 feet away, or else they would have wind notification to the officers to look the matter up. The verdict acquitting Brown is a popular one. Brown will now sue for damages.

TRAIL GETTING HOT.

Some Prospects of Capturing the Missouri, Kansas and Texas Train Wreckers.

ST. LOUIS, Feb. 10.—Advices to the officials here of the Missouri, Kansas and Texas road state that the injured in Thursday's night's train wreck are doing fairly well.

Mailclerk Lon Morris, Express Messenger H. Patton and Baggage-master G. W. Carter were the most seriously injured. The first named is lying unconscious and delirious by burns.

Both Morris and Patton could not be forced to leave their mail and express safe until the property in their charge had been properly cared for. They then collapsed.

Sheriff Ellis and City Marshal Erickson with a posse and bloodhounds have struck a trail and are following it with the expectation of catching the criminals. The last heard from them the trail was getting hot.

Old Mexican Bond Redeemed.

WABASH, Ind., Feb. 10.—Some weeks ago J. W. Eward of Converse sent an old \$50 bond, issued 30 years ago by the government of Mexico, to Minister Isaac P. Gray, to ascertain whether it had any value. Mr. Eward had kept the security for many years, imagining it was worthless, and he is therefore highly pleased at receiving a letter from Minister Gray, who says that he presented the bond at the Mexican treasury department and was assured that it would be redeemed at its face and accrued interest, the total amount being \$116.50. Eward has written Minister Gray to accept the amount.

From Lafayette's Grave.

PARIS, Feb. 10.—The Society of the Daughters of the American Republic of San Francisco recently asked the French government for a few ounces of earth from the grave of General Lafayette, in which it intended to plant a tree of liberty. The French government has acceded to the request of the ladies of San Francisco, and the minister of the interior, M. Reynal, had a box filled with earth from the grave of General Lafayette, in Pichens cemetery. The box was sealed with the arms of the city of Paris, and will be immediately forwarded to San Francisco.

Can Have Work at a Reduction.

HAMMOND, Ind., Feb. 10.—It was given out last night by Superintendent Ripley of the Lake Side Nail company that the mammoth plant here, which has been closed down since last December, would start up full blast early next week, providing the men would sign the new scale, which is said to be from 15 to 25 per cent lower than that of 1893. The Amalgamated union is opposed to the reduction. If the rollers and nail cutters decide to accept the new scale, at least 400 men and boys will be given permanent employment.

Train Wrecked.

WHITING, Ind., Feb. 10.—The Baltimore express No. 47, with three Pullman passenger cars, John N. Elder, conductor, was wrecked at this place. The injured are: J. Moore, engineer, Garret, Ind., bruised about the head and D. W. Linville, fireman, Garret, Ind., shoulder injured. The train struck a load of brick which stood on the track.

Boiler Explosion With Fatal Results.

NORWALK, O., Feb. 10.—A terrible accident occurred at Boughtonville, this county, late yesterday afternoon. Three men were sawing wood with a portable mill on the farm of Isaac Atyeo when the boiler exploded. Mack Atyeo, son of the former, was instantly killed and his brother, Verner Atyeo, and Fred Gness were fatally injured.

White Caps Driven Off.

SPRINGFIELD, O., Feb. 10.—Eight masked White Caps visited Thomas Davis' residence at New Carlisle Thursday evening and attempted to bind and gag him, but they were driven off by his wife giving the alarm.

BUSINESS IMPROVED

But Still Expectations Have Not Been Fully Met.

EFFECT OF THE TREASURY LOAN.

It Has but Temporarily Stopped the Gradual Drain Which Began Some Time Ago—Industries Are Doing More Work Than in December—Crop Report Disappointing—Weekly Review of Trade.

NEW YORK, Feb. 10.—R. G. Dun & Company's weekly review of trade says: Improvements in business still appear in many directions, but it seems to be in part balanced by loss in others. The gradual drain which began some time ago, and was strengthened a little by the success of the treasury loan, has scarcely answered expectations. Reports of resumption of work continue to indicate that the industries are doing more than in December, and yet the record of their actual gain is disappointingly small.

Crop reports were expected to cause a great advance in wheat, but the price has dropped to 73 1-8 cents cash, the lowest point ever known in this market, and at Chicago May wheat has gone lower than ever. Receipts have been larger at the west, 1,000,517 bushels, against 2,186,370 for the same week last year, while Atlantic exports are not a third of last year's.

Stocks in sight diminish little, and so grant that bankers, after their trying experience last spring, are not in haste to carry them for speculations. The fall for the week was about 2 cents, with sales of 8,000,000 bushels in one day and 14,000,000 bushels for the week. Sales of corn were small and the price declined less than a cent, though western receipts were 1,147,266 bushels, against 2,558,244 bushels last year.

Hog products and coffee were substantially unchanged. Cotton rose a sixteenth in spite of visible stock exceeding half the world's consumption for a year, and a decrease of 20 per cent compared with last year in sales of northern spinners. Speculative forces on either side, rather than the fears of supply and demand, govern the market.

The domestic trade is not materially increased, exchanges indicating a decline compared with last year of 19.5 per cent elsewhere and 14.5 per cent at New York.

The actual production of pig iron Feb. 1 was 99,212 tons weekly, against 97,097 tons Jan. 1, and 171,201 a year ago.

Textile manufactures are gaining a little. Inquiry discloses larger stocks of cotton goods held by dealers than was supposed, and quite a large proportion of mills are likely to close before long unless orders increase, but the number reported starting is again several times the number reported closing. Sales of wool were decidedly larger last week, 5,776,040 pounds, against 4,855,750 last year, and the markets were all more active, but this week are comparatively quiet.

Foreign trade does not improve, domestic exports at least falling below those of the corresponding week last year, though for the year thus far the increase is 10.7 per cent, while the imports are 30 per cent less than last year.

The failures for the week were 385 in the United States against 222 last year, and 60 in Canada against 41 last year, several being of more than ordinary importance. Out of 2,188 commercial failures reported by telegraph in January against 1,409 for the same week last year liabilities have been reported for \$2,206, amounting to \$9,843,028, of which \$11,589,715 were of manufacturing and \$17,284,057 of trading concerns.

AN AGREEMENT REACHED.

The Northern Pacific Troubles With Its Employees Settled.

MILWAUKEE, Feb. 7.—The receivers of the Northern Pacific and the representatives of the men employed on the road have come to an understanding. The receivers will modify the order reducing wages and concede, in fact, most of the points asked by the men.

Nothing will be made public concerning the settlement, Mr. Oakes says, until Judge Jenkins had passed upon it. To make it public would be contempt of court. The railway men will remain in the city until they receive the formal order, which can not be issued until Judge Jenkins returns from Chicago. The men were opposed to a strike, and modified their demands so as to avoid a conflict.

MANSFIELD RIOTERS

The First One Tried Was Acquitted of the Jury.

PITTSBURG, Feb. 10.—The first of the Mansfield coal region riot trials was tried yesterday before Judge Ewing. The prisoner was Joseph Balechek. The charge was assault and battery on William Frumey, a miner of the Pittsburgh Fuel company at Roseville. The jury found him not guilty, but ordered him to pay half the costs.

The 60 other miners charged with rioting will be called for trial Monday. All will be tried together, a larger number than ever were tried together before in this county. It is expected that some will plead guilty.

One Student Shoots Another.

HUNTINGTON, W. Va., Feb. 10.—Henry Potts accidentally shot John Alexander last night, killing him instantly. The boys were college students and were in James Tyree's study room. Potts took a revolver from a drawer, and representing a theatrical scene, pointed it at Alexander almost without knowing that he touched the trigger. The pistol went off with the result as stated. Alexander's home is in Kanawha county.

EDITOR SAM STAIRS announces that there will be "some new, improved, progressive and important changes" in the Augusta Reporter about February 14. It will be issued as a semi-weekly after that date. Success to Sam and the Reporter.

The Diamond Match Company paid \$1,612,000 dividends on last year's business. The net profits for 1893 were \$1,359,577.15, against \$1,050,000 in 1892. Surplus and profits for 1893 were \$1,471,679.05. The company practically enjoys a monopoly of the business, and is amassing wealth fast.

THE INCOME TAX.

Speaker Crisp made one of the strongest speeches yet heard in favor of the Wilson bill. In speaking of the income tax clause he said:

We propose in this new system (and on this I want to say a word to my friends on this side) simply to put part of the burdens of the support of this government upon wealth and to take off a portion of the burden from consumption. Our present system is a tax on consumption. Every dollar that goes into the treasury of the United States as a tax, internal or external, is a tax on consumption—on what people consume, not what they have. Now, this suggestion is not new. I have before me a citation from a very distinguished Republican, one of the fathers of the party, who was a great man in it, even in the time of thirty years ago. Mr. Sherman of Ohio said in a speech on the 15th of March, 1872: "The public mind is not yet prepared to apply the key to a genuine revenue reform. A few years of further experience will convince the whole body of our people that a system of national taxes which rest the whole burden of taxation on consumption and not one cent on property or incomes is intrinsically unjust. While the expenses of the national government are largely caused by the protection of property, it is but right to require property to contribute to their payment."

Republicans who denounce the income tax as "odious" should be more specific, and tell just wherein it is "odious."

THAT NEW YORK CONGRESSIONAL ELECTION.

The editor of the Ledger has been jubilating over the result of the recent special election in some of the New York Congressional districts, in which Colonel Brown, one of the Democratic nominees was defeated. He ought to study the figures a little more closely, and look at some other facts connected with the case. If he will do this, he will not get so much comfort out of the returns. For his information we publish the following:

The district in which the Democratic candidate was defeated is a labor district. The candidate defeated is Colonel W. L. Brown, formerly of Youngstown, O., and at present, and for several years past, a State Senator from New York City. As such Senator he has cast several votes adverse to the interests of labor and dodged others in which labor was interested.

There was an election in this district in November, 1892. The total vote at that time was 45,487. At the election last week, the total vote was only 27,791, a falling off of 17,676. Two years ago the Democratic vote was 26,267; last week 12,582. Two years ago the Republican vote was 17,442; last week 15,506. The Democratic vote fell off 13,085 and the Republican vote 3,876.

It will be seen that neither party held its own, but the Republicans came nearer polling their strength than the Democrats. As in most all special elections, especially where the party is largely in the majority, there was a big stay-at-home vote in the Democratic ranks. These facts cut a bigger figure in the fight, undoubtedly, than the Wilson bill.

MANUFACTORIES RESUMING.

Business Boom in Sight in the Shoe District—A Number of Wool-en Mills to Start.

St. Louis, Mo., Feb. 8.—The Madison Car Works Company's great plant at Madison, Ill., is soon to be reopened after an idleness of over eight months, thus giving employment to 400 skilled mechanics. The stockholders have arranged for an issue of \$200,000 of preferred stock, of which creditors will take \$60,000, the remainder to be disposed of for cash. The balance of the indebtedness of the company will be secured by preferred notes for 12 and 24 months. The closing was the result of an assignment last summer, in which the liabilities and assets reached over \$1,000,000.

Ashland News: The Huntington glass works, employing 500 men, will resume soon. The company will issue \$40,000 worth of bonds, \$5,000 of which will be taken by the men. Some of the employes have taken from \$100 up to \$500, and they are to pay each week 20 per-cent. in wages, but if they don't work they don't pay. This is of benefit to the plant as well as to the men, as it gives them a monetary interest in the concern on easy payments, and this of course gives them a personal interest in the success of the establishment.

Haverhill, Mass. Feb. 6.—That a business boom is in sight is now generally conceded in the shoe district. The output has not as yet shown a great proportionate increase, but numerous rush orders for the remainder of spring work are in hand, and the encouraging condition of affairs promises to continue. Besides orders for immediate delivery the fall samples are out and ready for inspection. Salesmen are departing West and South, and so far as heard from are being well received by jobbers.

PHILADELPHIA, PENN.—The action of the House of Representatives in deferring free wool until August and the operations of the woolen goods schedule until December has had a remarkable effect on the wool market here. Inquiries are pouring in from manufacturers, and, as a result, a number of mills will shortly start.

HORNELLVILLE, N. Y., Feb. 7.—The Hollow Cable Manufacturing Company of this city has resumed work, after a long idleness. It is said orders have increased 100 per cent. The Rockland silk mill, one of the largest in the country, and the Preston Brick Company resumed to-day.

Amusements.

Commencing Monday night, February 12th, the society favorites, Mr. and Mrs. Robert Wayne, under the management of Howard Wall, John A. Hinmolein, associate manager, will open a week's engagement at Washington Opera House, presenting as their initial performance the beautiful romantic drama, "Forgiven." Of it, and the company, an exchange says: "Mr. and Mrs. Robert Wayne opened a week's engagement at the Grand Opera House in the romantic drama, entitled "Forgiven." It is a beautiful play, and Mr. and Mrs. Wayne's interpretation of their parts was highly artistic. He in the role of Jack O. Diamond, the gambler, and she as Anna Dennison, afterwards Jack's wife. The supporting company is a strong one, and ably supported the stars." Seats on sale at Nelson's.

Cost 'Em Ten.

Colonel Thomas Turner, of Mt. Sterling, and Colonel H. L. Stone, of Louisville, had a "runkus" in the Master Commissioner's office at Mt. Sterling one night last week, where they were arguing a case before Judge Cooper, says the Carlisle Mercury. Colonel Turner passed the d—l— on a silver waiter, the receipt whereof was acknowledged by Colonel Stone, who gave him a bottle of ink in the short ribs. Other lawyers present were the victims of a few stray ink spots, and by the intervention of those present the fight progressed no further in blows, but a sparring match of words followed which was, by no means, complimentary. The Judge gave them each \$10 for contempt.

The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

Good vs. Evil.

According to recent statistics the defalcations of one year amounted to \$8,000,000. 'Tis a heavy aggregate and sad to contemplate. But in the other side of the balance are found these figures. The gifts to education and religious objects for the same year are set down at \$20,000,000, almost four times better.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

The C. and O.'s Train Record.

The Chesapeake and Ohio Passenger Department reports the following through train movement for January: No. 1—Left Washington on time 31 times; arrived in Cincinnati on time 29 times. The arrival on the other two days of the month were only a few minutes late, no connection being missed.

No. 2—Left Cincinnati on time 31 times; arrived in Washington on time 31 times.

No. 3 (F. F. V.)—Left Washington on time 23 times, left Washington over fifteen minutes and under one hour late 8 times; arrived in Cincinnati on time 30 times, having made up time on seven days of the month.

No. 4 (F. F. V.)—Left Cincinnati on time 27 times, and was late four times leaving on account of connections, which in nearly every case was made up.

Exports For Six Months.

From July 1, 1893, to December 31, 1893, we exported 57,010,197 bushels wheat, against 66,195,699 bushels the year before. The exports of flour were 8,798,939 barrels and 8,978,457 barrels for the same periods, respectively. For the same periods, corn exports last year were 29,128,817, and the year before, 20,534,352, a substantial increase. But the increase in oats was remarkable, 5,389,519 bushels last year, against 676,495 bushels the year before. The great drought abroad was, of course, responsible for the increased demand for feed stuffs.

Delinquent Tax Notice.

Notice is hereby given that by order of the City Council of Maysville, all property with taxes unpaid by March 1st, 1894, will be advertised for sale and sold according to law. Twenty-five per cent. will be added to the delinquent taxes if advertised for sale.

Those with taxes unpaid will please take notice from this and pay at once. D. P. Orr, Chief of Police.

CIRCUIT COURT.

Grant Ward Sent Up For Seven Years—Robt. Murphy's Claim Held Good.

Grant Ward, charged with detaining a woman with intent to commit a rape, pleaded guilty. The jury fixed his punishment at seven years' imprisonment in the penitentiary. Ward is the individual who attempted to assault Mrs. Edward Gault, near Shannon, last June.

Fred Willis, colored, was found guilty of cutting and wounding another, and was given six months in jail. This is the case reported at Murphysville some weeks ago. It grew out of the "game" of "leading and riding" among the youngsters of that village. Willis didn't want to play, and in the scuffle one of the lads kicked him and he turned and cut the boy.

The breach of promise case of Lena Hamilton against James Shackelford is on trial. The jury was impaneled Friday afternoon.

The Bramel will case is set for trial on February 21st.

Robert Murphy, who was thought to be dead, but who recently turned up at Mexico, Mo., and made claim for his interest in the estate of his brother, the late W. H. Murphy of Shannon, appeared in court. The court decided that he was the person he represented himself to be, and by consent of all parties interested a judgment was entered in his favor for the amount due him. After payment of the costs, the balance due him was \$585.97, which was paid him by the Master Commissioner.

THE LAW-MAKERS.

The Underground Electric Wires Bill Not Likely to Get Through Other News.

The Committee on Municipalities reported Mr. White's bill to compel all electric wires to be put underground, with the opinion that it ought not to pass. Mr. White made a vigorous protest against killing the measure, and asked that it be allowed to go to its second reading, the opinion of the committee to the contrary notwithstanding. Mr. White denied any intention of doing an injustice, but felt it was his duty to introduce the measure.

Mr. Lyons answered Mr. White in behalf of the committee. He spoke of the great benefit Covington, Newport and other cities had derived from the electric wires. He thought it would be a gross injustice to compel these companies, which had done so much to build up these cities, to now reconstruct their entire system of wires. The House, by a vote of 51 to 34, ordered the bill to its second reading, but there is little probability of its passing.

The Senate defeated the bill requiring all railroad companies operating in this State to be incorporated under the State laws. The bill, if it had passed, would have required all litigation with such railroads to have been settled in the State courts. The railroads prefer that cases of moment be heard in the United States Courts, where the corporations have a better show.

The act regulating tax on building associations was also passed by the Senate.

The Bee Hive's Big Clearance Sale.

Everybody should give the Bee Hive's big advertisement a careful reading, and note the long list of bargains they are now offering. This great clearance sale will last only two weeks, and if you fail to take advantage of it you will be the loser.

Ladies' all-wool ribbed vests which formerly sold at \$1 are now offered for only 39 cents. This is a sample of the hitherto-unheard-of bargains which are now on sale.

Remember this sale will continue only two weeks.

The Money Was Returned.

Paris Kentuckian: "There is a codicil to the story that goes the rounds about Rev. Taliaferro, in preaching at Millersburg denying that his daughter had ever danced, and offered \$10 to any one who would prove it. A. Thomason proved it by J. Letton, and was given the money, but the daughter explained that she had never regularly danced with Mr. Letton, but had once at Blue Licks simply schottisched across the parlor floor with him as they started to go out to the springs. This was admitted and the money returned."

Another Cockfight

The Lexington Transcript says a big cockfight occurred near there Thursday between Maysville and Paris birds. The Transcript adds: "When the last main was over it was found that the Paris boys had a great deal the best of the fight. Nearly two-thirds of the mains had been won by them, and the way the champagne corks flew was simply delightful. The Maysville boys took their defeat very philosophically, and say they will have another try at an early day."

A Remarkable Case.

The ten-year-old daughter of Mrs. Pickett Best living near Orangeburg has been suffering from pleuro-pneumonia for some time. Yesterday Dr. Browning of this city and Dr. Hord, of Orangeburg, drew from the right chest cavity three full pints of pus. It's a rather remarkable case for one of her age. She rallied nicely from the operation and is in a fair way to recover.

Individual effort means a great deal, but not half as much as we should make it. If we were to examine oftener our hearts and think twice before we speak, we would avert many slips of the tongue and our actions would force us to lead lives consistent with charity, kindness and godliness. At the Y. M. C. A. hall to-morrow, Professor J. H. Rowland will give a few points on the benefits and detriments of individual effort, so that if you wish to be instructed and pleased come out to the men's meeting at 8 p. m. Night theme, "Some Seed Thoughts for To-morrow's Harvest." "We live in deeds, not in years; in thoughts, not in breaths; in feeling, not in figures on a dial. We should count time by heart-throbs. He most lives who thinks most—feels the noblest—acts the best." A profession of moral purpose not emphasized by action is mere cant—the currency of hypocrites. Automatic obedience to authority can never inspire the soul with the full meaning of life. "He who would inspire and lead his race must be defended from traveling with the souls of other men, from living, breathing, reading and writing in the daily, time-worn yoke of their opinions," says Emerson. The man who discovers a new truth, destroys a falsehood, or disturbs a prejudice is a benefactor of the race.

E. B. CAKE, Minister.

HERE'S A GOOD ONE.

But You Don't Have to Believe it. What Became of the Doctor's Corpse?

It's a cold day when Vanceburg's newspaper correspondent can't scare up a special. The following is his latest, and he asserts that its truth is vouched for by his informant. He says: "Dr. C. H. Dyer, who lived in Fleming County, near the Lewis County line, and who was well-known throughout this section of the State as a very noted 'root and herb' doctor, died some six weeks ago and was buried at his home, near Muse Mills, Fleming County.

"A few days ago a pack of hungry dogs were discovered digging with might and main in the doctor's grave. They were driven away but returned as soon as the men left, and re-began their digging and howling. The friends of the deceased doctor, becoming anxious to know just what the dogs were after, concluded to take the body up. They did so, but what was their astonishment, when, on opening the coffin, they found, not the body of the venerable doctor, but a 200 pound hog, nicely rolled up in a winding sheet, waiting for Gabriel to toot his horn, when he would walk out and claim the doctor's share in the glories that await him at the final resurrection of the just.

"The conclusion of the natives as to how this transformation came about is, that as the doctor was not above suspicion from a moral standpoint, the Lord had changed his mortal remains into those of a hog. The case is a very remarkable one, viewed from any standpoint."

HOUSE PROCEEDINGS.

The Entire Day Consumed in the Debate on the Bland Silver Seigniorage Bill.

WASHINGTON, Feb. 10.—The entire day in the house was consumed in debate on the Bland silver seigniorage, the speakers being Messrs. Bland, C. W. Stone, Pennsylvania; McKeighan, Harter and Kilgore. The debate will be interrupted this afternoon at 2 o'clock by the special order setting aside the rest of the day for enlogies upon the late Representative O'Neill of Pennsylvania.

It is expected that a vote on the bill will be reached by Tuesday at the furthest and Mr. Bland is confident that it will pass. This opinion is generally shared by the leaders on both sides, although there probably will be some modifications of the bill that will make it more acceptable to the Democrats who are now opposing it.

CONDENSED NEWS.

Short Items From Various Parts of the Country.

W. Lowe received a life sentence at Hillsboro, N. D., for killing a policeman. William Metler was killed at Mount Gilead, O., by a didn't-know-it-was-load-el gun.

Complete Manhood

and how to attain it.

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years; 96 pages, every page bearing a half-tone illustration in tint. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would alone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal. Address the publishers, Erie Medical Co., Buffalo, N. Y.
